UCSF Health System

UCSF Health System is one of the health care components of the University of California. The University of California health care components consist of the UC medical centers, the UC medical groups, clinics and physician offices, the UC schools of medicine and other UC health professional schools, departments engaged in clinical care, the student health service areas on some campuses, employee health units on some campuses, and the administrative and operational units that are part of the health care components of the University of California.

Our Pledge Regarding Your Health Information

UCSF Health System is committed to protecting medical, mental health and personal information about you (“Health Information”). We are required by law to maintain the privacy of your Health Information; provide you information about our legal duties and privacy practices; and inform you of your rights and the ways in which we may use Health Information and disclose it to other entities and persons.

How We May Use and Disclose Health Information About You

The following sections describe different ways that we may use and disclose your Health Information. Some information; such as certain drug and alcohol information, HIV information, genetic information and mental health information; is entitled to special restrictions related to its use and disclosure. Not every use or disclosure will be listed. All of the ways we are permitted to use and disclose information, however, will fall within one of the following categories. Other uses and disclosures not described in this Notice will be made only if we have your written authorization.

How We May Use and Disclose Health Information About You (cont.)

For Treatment. We may use Health Information about you to provide you with medical and mental health treatment or services. We may disclose Health Information about you to doctors, nurses, technicians, students, or other health system personnel who are involved in taking care of you in the health system. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. A doctor treating you for a mental condition may need to know what medications you are currently taking, because the medications may affect what other medications may be prescribed to you. We may also share Health Information about you with other non-UCSF Health System providers. The disclosure of your Health Information to non-UCSF Health System providers may be done electronically through a health information exchange that allows providers involved in your care to access some of your UCSF Health system records to coordinate services for you.

For Payment. We may use and disclose Health Information about you so that the treatment and services you receive at UCSF Health System or from other entities, such as an ambulance company, may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to give information to your health plan about surgery or therapy you received at UCSF Health System so your health plan will pay us or reimburse you for the surgery or therapy. We may also tell your health plan about a proposed treatment to determine whether your plan will pay for the treatment.

For Health Care Operations. We may use and disclose Health Information about you for our business operations. For example, your Health Information may be used to review the quality and safety of our services, or for business planning, management and administrative services. We may contact you about alternative treatment options for you or about other benefits or services we provide. We may also use and

disclose your health information to an outside company that performs services for us such as accreditation, legal, computer or auditing services. These outside companies are called “business associates” and are required by law to keep your Health Information confidential. We may also disclose information to doctors, nurses, technicians, medical and other students, and other health system personnel for performance improvement and educational purposes.

Appointment Reminders. We may contact you to remind you that you have an appointment at UCSF Health System.

Fundraising Activities. We may contact you to provide information about UCSF Health System sponsored activities, including fundraising programs and events. We may use contact information, such as your name, address and phone number, date of birth, physician name, the outcome of your care, department where you received services and the dates you received treatment or services at UCSF Health System. You may opt-out of receiving fundraising information for the UCSF Health System by contacting us at Records Manager, UCSF, Box 0248, San Francisco, CA 94143-0248, or HIPAAOptOut@support.ucsf.edu, or 1-888-804-4722.

Hospital Directory. If you are hospitalized, we may include certain limited information about you in the hospital directory. This is so your family, friends and clergy can visit you in the hospital and generally know how you are doing. This information may include your name, location in the hospital, your general condition (e.g., fair, stable, etc.) and your religious affiliation. The directory information, except for your religious affiliation, may also be released to people who ask for you by name. Your religious affiliation may be given to members of the clergy, such as ministers or rabbis, even if they don’t ask for you by name. You have the opportunity to limit the release of directory information by telling UCSF Health System at the time of your hospitalization.

Our disclosure of this information about you if you are hospitalized in a psychiatric hospital will be more limited.

We may also give information to someone who helps pay for your care. We may also tell your family or friends about your general condition and that you are in the hospital.

Disaster Relief Efforts. We may disclose Health Information about you to an entity assisting in a disaster relief effort so that others can be notified about your condition, status and location.

Research. The University of California is a research institution. We may disclose Health Information about you for research purposes, subject to the confidentiality provisions of state and federal law. All research projects involving patients or the information about living patients conducted by the University of California must be approved through a special review process to protect patient safety, welfare and confidentiality.

In addition to disclosing Health Information for research, researchers may contact patients regarding their interest in participating in certain research studies. Researchers may only contact you if they have been given approval to do so by the special review process. You will only become a part of one of these research projects if you agree to do so and sign a specific permission form called an Authorization. When approved through a special review process, other studies may be performed using your Health Information without requiring your authorization. These studies will not affect your treatment or welfare, and your Health Information will continue to be protected.

As Required By Law. We will disclose Health Information about you when required to do so by federal or state law.
